

The girls of Casa Havilah in Managua, Nicaragua have been rescued from dangerous living situations in the city's municipal dump, called La Chureca.

Victims of abandonment, starvation and malnutrition, exposure to drug users or prostitutes in the home, and domestic abuse, these 15 sweet girls from ages four to 15 are being given a second chance in a safe, clean, familial environment at this home for girls run by the Buzbee family of missionaries.

Here is a website to check if you want more information: www.ohearts.org

The house mothers and the mission team have made requests for the items below, or anything a little girl would like. *Can you help?*

How will these love donations get to the girls of Casa Havilah?!!

Please bring a few of the items on the list below to the next Common Grounds. We have been blessed to have two Continental flight attendants who are willing to carry these small items down to Managua. God is good!!!

As soon as we have a load, our ladies of the Conduit of Care will schedule a trip!!

Shampoo
Underwear
Feminine products
